

## 【公衛所演講公告】

### 講題：Bang for the Buck Through Dissemination and Implementation: Overview of an Emerging Field of Research

簡介一個新發展的研究領域：透過研究結果的傳播與執行來創造最大價值

時間：2017/9/14(四) 10:00-12:00

地點：公衛所 08077 會議室

講者：

**Shoou-Yih D. Lee, MS, PhD**

Professor and Associate Chair, Department of Health  
Management and Policy Faculty Lead, Griffith  
Leadership Center  
The University of Michigan School of Public Health

演講摘要：

Implementation science, defined as the scientific study of strategies and methods to promote the systematic uptake of research findings and other evidence-based practices into routine practice, is aimed to bridge the science-to-service (knowing-doing) gap. The purpose of this presentation is to explain the origin of this rapidly developing field of research, its potential contribution to creating “bang for the buck” for health care delivery, and emerging new opportunities for health services research.
